

AERA GO

The AERA GO uses Prolitec's patented AirQ technology to diffuse fragrance and odor canceling products into the air. The only car diffuser with ten easily adjustable fragrance strength levels. Find the perfect intensity for you and your passengers - whether they're humans or four-legged friends.

Aera Go releases fragrance only while the car is in motion. Each capsule lasts up to 350 hours on a medium setting. That's a lot of rush-hour commuting!

- ✓ Automatic on/off
- ✓ One capsule lasts 350 driving hours
- ✓ Powered by USB port
- ✓ Long-lasting fragrance technology
- ✓ 10 intensity levels
- ✓ No batteries required
- ✓ Eliminates unpleasant odors

10 intensity levels give you control.

AirQ™ droplets are 50 times smaller than traditional aerosol. When you start your car the AERA GO will automatically start and when you stop the engine of your car the AERA GO will stop also.
